

PE and Sports Grant Expenditure for 2015 – 2016

The PE and Sports grant is designed to help primary schools improve the quality of the PE and sports activities schools offer their pupils. Over £450 million has been spent on the funding over the last three academic years.

Objectives at St. Mary's

- To develop skills of teaching staff in PE to build long term sustainability of the initiative, including developing staff confidence.
- To improve the quality of the PE curriculum by use of specialist PE staff.
- To improve school participation in St. Bernard's Learning Community sports festivals and master classes.
- To improve participation in other community sports initiatives..
- To provide pupils with broader experiences of PE
- To increase the number of extra-curricular sporting opportunities.
- To ensure Gifted and Talented children in PE are identified and signposted to community programmes.
- To make accurate assessments of pupils sporting ability.

As all the schools in the St. Bernard's Learning Community are working more closely together, it was decided by the Headteachers at all the schools that the grant would be used to fund employment of two specialist PE teachers to work for one afternoon each in all the primary schools. This has had a significant impact on the quality of PE provision.

Total grant £8,905

Objective	Cost	Impact
To provide pupils with broader experiences of PE To develop skills of teaching staff in PE to build long term sustainability of the initiative, including developing staff confidence.
