

## PE and Sports Grant Expenditure for 2013 – 2014

The PE and Sports grant has been introduced by the Government to enable all pupils in the country to have enhanced PE and Sports provision for two academic years.

### Objectives at St. Mary's

- To improve school participation in St. Bernard's Learning Community sports festivals and master classes.
- To improve participation in other community sports initiatives.
- To improve provision of play activities at lunchtimes.
- To provide pupils with broader experiences of PE
- To develop skills of teaching staff in PE to build long term sustainability of the initiative, including developing staff confidence.
- To improve provision by use of specialist PE staff.
- To increase the number of extra-curricular sporting opportunities.
- To ensure Gifted and Talented children in PE are identified and signposted to community programmes.
- To make accurate assessments of pupils sporting ability.

As all the schools in the St. Bernard's Learning Community are working more closely together, it was decided by the Headteachers at all the schools that the grant would be used to fund employment of two specialist PE teachers to work for one afternoon each in all the primary schools. This has had a significant impact on the quality of PE provision.

### **Total grant £9055**

<b>Objective</b>	<b>Cost</b>	<b>Impact</b>
To improve school participation in St. Bernard's Learning Community sports festivals and master classes.	£350 contribution to transport costs	St. Mary's have entered a team in every event organised by St. Bernard's for the learning community feeder schools, including cross country running, football, High 5s netball, Red Tennis, orienteering, basket ball, indoor athletics, gymnastics and dance.
