

We began Year Two with a History topic called 'Dinosaurs'. We researched interesting facts about the dinosaurs that lived millions of years ago. We learned about their names, their size and their diet. The highlight of our topic was a visit from a dinosaur specialist from the 'Dinostar' centre in Hull. He showed us some authentic dinosaur fossils and we even had a go at making our own fossils.

After half term, we continued our History focus with a topic called 'Ancient Egyptians'. We learned lots of interesting facts about the pharaohs and we produced some beautiful hieroglyphic writing. The highlight of our topic was an Egyptian workshop delivered by an education company based in Leeds. We painted our own cartouches and even created an Egyptian dance. Great fun was had by all!

Do you like our Egyptian dance moves?

We made our own fossils out of plaster of Paris,

We saw some dinosaur bones.
